Footnotes: ¹This is the 1st day on which a subscriber could have filled at our limit. ²This is the price at which most subscribers could have bought or sold based on recommendation. Many would have obtained better prices. ³Dividend Paid is the total amount received per share since recommended purchase. ⁴All percentages listed under "Total Return" are in U.S. dollar terms, even where the purchase and sale was in a foreign currency. ⁵This security made a partial redemption each year. Our total return is the average of the five partial redemptions and one sale affected while we held the stock. ⁶We received shares in Goldcorp (at the ratio of 0.4 to one) when it purchased a property from Virginia. We allocated our cost basis between Goldcorp, which we sold, and New Virginia, which we kept. The gain on Goldcorp is in U.S. dollar terms. The cost price has been adjusted to reflect the exchange ratio. Since we kept New Virginia, this represents, in effect, only a partial sale of our position. ⁷Cost basis reduced. Proceeds from July 24, 2008 sale of spun-off Western Lithium. ⁸We purchased Peak Gold which merged with New Gold in March. The price reflects our adjusted purchase price in U.S. dollars. ⁹These shares were acquired through the exercise of rights. *Exercise price of put less premium received. ~Sale of additional position only. We still own our core positions in these stocks. ¹Recommended as part of a "package" of four exploration stocks; each stock counts as one quarter of a full recommendation. ¹⁰We originally purchased Sprott Resource Lending, which was acquired in July 2013, for a ½ share of Sprott Inc plus 15 cents. We have adjusted the purchase price for dividends received before the acquisition, plus the cash component of the purchase, and currency conversion. ¹¹Price reflects two-for-one split, 11/04. ¹²We purchased Virginia Gold which subsequently merged with Osisko Gold Royalties. ¹³This is our return in U.S. dollar terms, including the second distribution to be made by October. We will adjust the total return once that distribution has been made. ¹⁴Reservoir Minerals was received originally as a spin off from Reservoir Capital. It was then acquired by Nevsun Resources (on the basis of two shares for one, with C\$2.00 cash). We have adjusted our purchase price, and added the cash received in the acquisition to the dividend. ¹⁵We purchased Magma Energy, which changed its name to Alterra in June, 2011. It subsequently had a 1-for-10 rollback. We have adjusted our purchase price accordingly. ¹⁶Ram and Alterra were purchased as a package for one position, 3/1/10, though sold at different times. The average holding period and the average return have been adjusted to account for this. ¹⁷We originally purchased Reservoir Minerals. Nevsun subsequently acquired Reservoir, June 2016, for two shares of Nevsun plus C\$2 (US\$1.53) in cash. we have converted the purchased price to U.S. dollars and adjusted the purchase price for the capital return. ¹⁸In August 2015, Almaden split into two, with shareholders receiving one share of "new" Almaden and 0.6 of a share of Almadex, a new exploration company. We allocated our cost basis for the two, adjusting the cost for Almaden. On May 28, 2018, Almadex Minerals split in two. Almadex Minerals changed its name to Azucar Minerals, retaining the symbol AMZ, while the spin off retained the name Almadex Minerals, with the symbol DEX. We have adjusted the cost basis of Azucar for the value of the Almadex spin off. ¹⁹We originally purchased Goldcorp in 2006. In April 2019, Newmont Mining purchased Goldcorp for shares. We have adjusted the purchase price, including adjusting the Newmont purchase price by the value of dividends received from Goldcorp. Only dividends received from Newmont will be shown in the "dividends paid" column. ²⁰Averages adjusted for splits.
